## FEATURES

### CUT COST

Web-based security eliminates the need for hardware.

### TOTAL PROTECTION

Our solution protects computers against viruses, rootkits, malware, phishing, data loss, web threats and much more.

### MANAGEMENT

With centralized management, employees never will have to update, monitor or troubleshoot security again, and can focus 100% on the business.

### POLICY

Granular policy settings are available for advanced admins, but those without an IT background will also find the solution simple to manage.

### SEARCH ADVISOR AND WEB FILTERING

Potentially harmful websites are marked in the search results and known malicious pages are blocked.

### MAINTENANCE

Implement a powerful but simple solution and eliminate the need for dedicated servers, maintenance or more IT staff.

### TECHNOLOGY

Advanced heuristics, web filtering, search advisor, USB scanning to block all malware entry points are included.

### DATA PROTECTION

Prevent the loss of confidential data by setting filters that will block the transmission of sensitive information.

### FIREWALL

Two-way firewall with Intrusion Detection/Prevention : the fully-featured two way personal firewall with Intrusion Detection is essential in blocking intrusion and hijack attempts.

### NETWORK

Automatically discover network computers using Windows Network Discovery.

## IT CLOUD SOLUTIONS : CLOUD SERVICES PROVIDER SINCE 2005

Born in the cloud, IT Cloud was established in 2005 to provide cloud backup services in the form of supervised cloud solutions to Canadian MSPs. Boasting a network of over 650 partners-resellers country-wide and tens of thousands of daily backups, our organization is among the top service providers of secured cloud backup and AV solutions as well as Microsoft cloud services in Canada. IT Cloud Solutions also stands at the forefront of the IT scene in terms of infrastructure and security.

With ITCloud.ca, MSPs across Canada can combine Business Continuity and Productivity in one single place!
