1. ACCEPTANCE OF TERMS OF USE

Please read these terms of use carefully before accessing services provided by IT Cloud Solutions. If you do not accept these terms of use, please refrain from activating your account.

If you are using our services on behalf of a business (such as your employer) or other legal entity, you represent that you have the authority to bind that company or other legal entity to these terms of use.

This agreement is made by and between IT Cloud Solutions (9078-3184 Quebec Inc.) located at 2525 Baillargeon Street, Trois-Rivières, Quebec, Canada G8Z 2V4, and the buyer of the services listed below, as described in IT Cloud Solutions' service registration process.

2. CHANGES TO THESE TERMS OF USE

We may modify these terms of use at any time, at our sole discretion. If we do, we will post the modified terms of use in the client zone on our website. The date on the document will act as a reference.

It is important that you check our terms of use from time to time because if you continue to use the services after we have posted modified terms of use on our website, you are indicating to us that you agree to be bound by the modified terms of use. If you do not agree to the modified terms of use, then you should no longer use our services.

3. CHANGES TO PRODUCTS AND SERVICES

IT Cloud Solutions is constantly evolving. Therefore, our products or services may change over time. We reserve the right to make these changes at any time and without notice, at our sole discretion.

For example, for various types of accounts, we may change:

- The frequency of certain features
- The number of days a file can be stored
- Bandwidth variation

IT Cloud Solutions reserves the right to cancel, suspend or change products/services in a 30 days' notice.

IT Cloud Solutions may suspend or terminate your account if your usage does not comply with the features, benefits and restrictions that apply to your account at that time.

4. YOUR RESPONSIBILITIES: ACCOUNT INFORMATION

Whenever you provide us with information about yourself, you agree to provide accurate, current and complete information. You also agree to keep your information up to date. Otherwise, we reserve the right to suspend or terminate your account.

We will have no liability for anything that might occur, or might not occur, should the information we have about you be inaccurate (such as a wrong email address). You authorize us, directly or through third parties, to make any inquiries we consider necessary or appropriate to verify your information, which may include providing your information to those third parties.

You are responsible for safeguarding your password. You agree not to disclose your password to anyone else. You have the sole responsibility for any actions taken under your password, whether or not you authorized those actions. You will immediately notify IT Cloud Solutions of any unauthorized use of your password.

5. YOU AGREE TO PAY FOR YOUR PURCHASES

These payment terms apply to purchases you make from IT Cloud Solutions, either directly or through our partners.

By purchasing an account, you agree to pay all charges in effect at that time for the services you buy, along with all applicable taxes and other fees. You authorize IT Cloud Solutions to charge your method of payment for your initial purchase, as well as for any future purchases and automatic renewals of any paid subscription.

If we are unable to charge your method of payment (for example, your credit card has expired), you are still responsible for paying us. Except as described under "cancellation" below, all fees are non-refundable, except in certain cases mentioned under "Additional terms." All amounts are to be paid in Canadian Dollars unless another currency was specified when you made your purchase.

5.1 Several products, one account

There are various billing cycles (monthly/yearly) and methods of payment (PPA, credit card, etc.). Having several products/services with different billing cycles or methods of payment does not translate into separate accounts. If, for whatever reason, you have defaulted on the payment of one of your products or services, your account will thus be considered delinquent and services for any products or services will be suspended, including those that are not delinquent.

6. SUBSCRIPTION, RENEWAL, BILLING AND CANCELLATION

Subscription periods are limited to either one month or one year, at the end of which your paid subscription will be automatically renewed for the same duration as your initial subscription, except if you cancel your subscription. The PDF electronic invoice is sent to you from notification@itcloud.ca and is automatically filed in your client zone. For monthly subscriptions, the invoice is generated and sent on the 15th of each month or on the following working day. The method of payment is by credit card, except in certain circumstances mentioned under “Additional terms.”

If you do not cancel your subscription before the end of your current subscription period, your paid subscription will be automatically renewed, you will be responsible for paying for the next subscription period, and you authorize IT Cloud Solutions to charge your method of payment at the current, full-price rate for your paid subscription, except in certain circumstances mentioned under “Additional terms.”

Cancellations must be performed through your client zone, by clicking on the X under Products/Services before the renewal date. You may cancel your paid subscription at any time by sending an email to administration@itcloud.ca or by creating a ticket request on your client zone. If you cancel your subscription before the end of your current monthly or annual subscription period, your subscription will not be renewed. You will not be entitled to a refund of any amount for the remaining time of your current paid subscription, except in certain circumstances mentioned under “Additional terms.”

The fees applicable to your account may change in the future. If the amount to be charged to your account changes (other than due to the imposition or change in the amount of sales taxes, or similar fees), IT Cloud Solutions will send you an email to notify you of the new amount to be charged ten (10) days before the scheduled date of the transaction.

If you are registered under the indirect program through a third party (e.g., a partner), such third party, featured on the invoice, will be considered the client and can therefore cancel your subscription.

In case of force majeure, we reserve the right to cancel a service at any time.

6.1 Changing partners

Your subscription to our services was performed through a partner on our portal. Your file is therefore linked to that partner in our system. As a result, your client record is kept in that partner’s portal and some information needed to ensure the proper provision of our services is held in their portal. This information does not include any sensitive data such as credit card numbers, encryption keys, etc. You can request a partner change from

your customer account to another partner at any time by going to your customer portal, click on the gear wheel at the top right and follow the instructions. Once your request has been processed, the former partner will no longer hold any information from your customer file in their portal.

7. INTELLECTUAL PROPERTY RIGHTS: USER FILES AND RIGHTS YOU GRANT TO US

We do not claim any ownership rights over your user files. To the extent necessary for IT Cloud Solutions to provide our services (and only as necessary), you give us and our third-party service providers permission to use, encrypt, copy, distribute, compress and otherwise process user files. In legalese, this means that you grant us a non-exclusive, worldwide, royalty-free, transferable licence, with the right to grant sublicences, and the right to use, copy, modify, store, publicly display, publicly perform, transmit and distribute your user files solely in connection with operating and providing the services.

IT Cloud Solutions reserves the right, in its sole discretion, at any time and without prior notice, to remove or disable access to any user files that we believe to be in violation of these terms of use or otherwise harmful.

9. PROHIBITED ACTIONS

By accepting these terms of use, you agree not to:

- Transfer, store, access or transmit any user file: that you do not have the lawful right to copy, transmit, distribute, and display; for which you do not have the consent or permission of each identifiable person in the user files to use the name, voice, signature, photograph, or likeness of each such person (to the extent each is implicated by the user files); that infringes or misappropriates the intellectual property rights or violates the privacy rights of any third party (including without limitation, copyright, trademark, patent, trade secret, or other intellectual property right, moral right, or right of publicity); that is defamatory; that is obscene, pornographic, or offensive; that promotes bigotry, racism, hatred, or harm

- Impersonate or misrepresent your affiliation with any person or entity ;
- Violate any applicable law or regulation ; or
- Encourage or enable any other individual to do any of the foregoing.

10. VIOLATIONS

IT Cloud Solutions has the right to investigate and prosecute violations of any of the above, including without limitation, possible infringement of any intellectual property rights and possible security breaches to the fullest extent of the law. IT Cloud Solutions may involve and cooperate with law enforcement authorities in prosecuting users who violate these terms of use. You acknowledge that, although IT Cloud Solutions has no obligation to monitor your access to or use of the services, it has the right to do so for the purposes of operating the services, to ensure your compliance with these terms of use, or to comply with applicable law, or the order or other requirement of a court, administrative agency, or other governmental body.

IT Cloud Solutions reserves the right at all times to disclose, in its sole discretion, any user files as necessary to:

- (i) satisfy any law, regulation, or governmental request; or
- (ii) reduce or prevent what IT Cloud Solutions considers to be, in its sole discretion, a serious or imminent threat to your health or safety, or the health or safety of another.

11. ADDITIONAL TERMS: PRODUCT AND SERVICE DEFINITIONS

The following product and service definitions describe the differences between the products and services as well as cancellation procedures and refund terms.

11.1 S Backup and MedicBackup: Technician supervision

Online data-backup service, supervised by technicians who intervene in order to solve any problems that may arise. Unlimited data-recovery service in the event of data loss.

There is no recovery guarantee during phase 1 or during the full backup recovery. Also, during recovery, backup may be deactivated, thus preventing data updates during this period.

We do not consider data deletion as a backup error. The report will show that the backup was successfully completed and will display the amount of data that has been deleted. No follow-up will therefore be performed by our team.

The client is responsible for the data destined for backup and for adding/editing/deleting any data.

Unlimited recovery support following data loss. Our Call Centre is located at 2525 Bail-argeon Street, Trois-Rivières (QC). Data and replication centers are located in Quebec and Ontario.

11.1.1 Installation and operation

Client software that enables data backup is installed by our authorized partners on computers or servers. Installation steps enable the definition of the backup set as well as its type (file, database, virtual machine, etc.), and the definition of the backup source (backup data) using a file explorer, the time the backup was made as well as the encryption key.

11.1.2 Encryption and security

Data is encrypted using a 256-bit key that is defined by the client and for which the client has sole responsibility. Without this key, data recovery from another computer is impossible. This encryption key renders unreadable all data hosted on our servers. Data travels between the client and IT Cloud Solutions's data centres through a 128-bit

SSL tunnel. The client is responsible for the data that is to be backed up as well as the encryption key.

11.1.3 Recovery and history

The client software offers a 45 to 180-data recovery period, depending on the chosen package. Data that is changed every day of the week will be available in 180 versions. Data that has been changed twice over the last 180 days will be available in 2 versions. Deleted data will be erased from our servers 46 to 181 days later, depending on the service package.

If this period is not respected, you will be notified and service will be suspended until payment is complete. Furthermore, promotions or discounts will be declared null and void. Service may be suspended following a final notice of non-payment. A collection agency will then be mandated the recovery of sums due, pro rata months of use.

A fee of \$30 is charged for an NSF cheque.

The following are the different subscriptions and accepted methods of payment:

Monthly: Method of payment: PAP/Visa/MasterCard

Promotions and discounts will be declared null and void should you cancel your subscription before its end. The same terms of use apply to additional accounts.

Should you cancel your subscription after having received your renewal invoice, you will be charged the equivalent of the cost of 1 month of your subscription.

Refunds are not applicable to unused services or surplus Gb. Refunds may only be granted following a service cancellation request or a package modification request. The minimum admissible amount for reimbursement is \$1.00.
